

Sweet Dreams (Nelson) Ltd Environmental Policy Statement

Sweet Dreams (Nelson) Ltd recognises it has an impact on the environment from a local to global level, both through its own actions and through its influence on other people or organisations when manufacturing and supplying products.

The company objective is to seek and achieve sustainable development. Sustainable development can be defined as 'Improving the quality of life for everyone without damaging the environment for future generations. We will work with, and seek to influence, partner organisations to achieve this. In recognition of its environmental impacts, and of the importance of protecting the environment, the company is committed to effectively managing the impact it has on the environment. In order to achieve this the Company will aim to :

1. Comply with all relevant environmental legislation, regulations and other requirements which apply.
 2. Reduce the environmental impacts of our activities where practicable by 5%, through the effective management of our energy use, resource use, waste management and emissions.
 3. Continually improve our environmental performance by setting annual improvement objectives and targets and developing actions to achieve them. These objectives and progress towards them will be reviewed each year.
 4. Protect the environment and human health by preventing, and where this is not possible, minimising pollution through our own activities and influence others to do the same.
 5. Educate staff to ensure an appropriate level of environmental understanding is established throughout the organisation so that environmental objectives can be achieved.
- We will update this policy at least once annually in consultation with staff and other stakeholders where necessary.
